DIGITAL TALKS

BEC 2023
6-8 JUNE

DIGITAL TALKS will offer you an excellent opportunity to learn about the latest trends and 4.0 technologies in the field of digital transformation as applied to industry; the context of the conference will therefore be of special interest for those companies using industrial equipment seeking to improve and streamline their production processes.

PROGRAMME 2023

KEYNOTE

- ✓ Digital Transformation of Industries - EUROPEAN COMMISSION

SHARED DATA SPACES IN INDUSTRY / A. I..

- ✓ Applications of quantum technology in Industry
- ✓ New IT architectures lead the way to sustainable digitalisation of the automotive industry
- ✓ Discussion Panel: Data Space in Industry

DIGITALISATION AND AUTOMATION OF PROCESSES

- ✓ Industrial Control Tower: SEAT success story
- ✓ The ecosystem of Robotics, Automation and Digitalisation
- ✓ Aston Martin Formula One success story. How to beat the competition by committing to digital
- ✓ Success story: Industrial Data Research Open Laboratory
- ✓ Discussion Panel: Success stories in the Digitalisation of Manufacturing Workshops

INDUSTRIAL CYBERSECURITY

- ✓ Discussion Panel: Industrial cybersecurity
- ✓ Cybersecurity in Industrial Companies: A Case Study of Semantic Systems
- ✓ Design and securing in OT networks of production plants

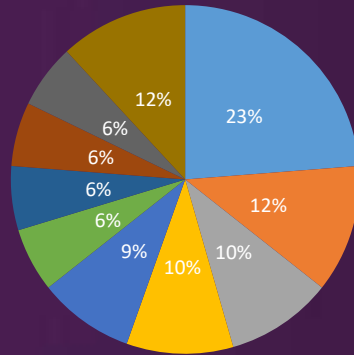

Speakers at Digital Talks 2023:

*Data extracted from surveys answered by visiting companies and congress participants.

VISITING SECTORS

- Software Solutions (CRM, ERP, etc.)
- Big data & Analytics
- Cyber-security
- Internet of Thing - IoT
- Industrial Engineering Services
- Artificial Intelligence
- Cloud Computing & Services
- Aumented Reality / Virtual Reality
- Telecommunications
- Others: Consultancy, Robotics...

EXHIBITORS COMPANIES FROM:

EXHIBITING COMPANIES 2023

Advertising has been carried out in various media; online campaigns, LinkedIn channel, digital directory on the website and app, collaboratos websites and in print and digital format in both technical and general press. Through this integrated communication strategy, the visibility and presence of both the evento and all the companies participating in it is boosted.

Big companies confirm their participation in the V edition of BeDigital

With digitalization already established in the business field and the growth and business opportunities that digital technologies offer to industrial processes already proven, the new edition of BeDigital, which will be held from June 6 to 8 at the Bilbao Exhibition Centre, has the confirmation of reference firms such as Abbyy, Clúster Gaia, Ekon, GH Cranes, Henkel, Interxion, Ifs, Kaspersky, Leica, Iks, Murrelektronik, S21 Sec, Telefónica and Watchward, Zylk and Zucchetti, among others (...).

ESTRATEGIA

(...) The fifth edition of BeDigital, Transforming Industry, will once again offer a dynamic format with segmented areas for the practical demonstration of products and services, networking and knowledge transfer. Thus, through the Digital Talks -conferences of technological and strategic content in innovation-, on June 7, representatives of leading national and international companies will address the evolution, implementation and great challenges of digitalization, contributing their own experiences and presenting in first person their success stories (...).

Ideas para tu empresa

Business fairs in 2023: which ones you need to know

The normalization of living with Covid-19 has meant that, increasingly, business fairs and events are once again holding new events. In a digitalized world, sometimes going back to the old way and attending an event with personal contact with companies and service providers can be interesting for freelancers. BeDIGITAL 2023: Facilitators of digitalization tools and industrial companies that use these tools will attend the event. The fair will have a combined exhibition and congress area format (...).

+ INDUSTRY 2023

 

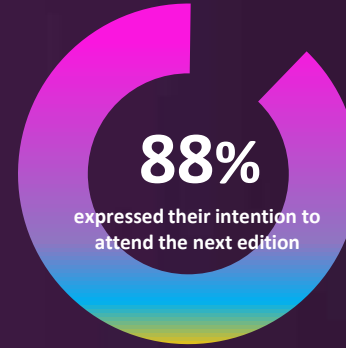

PEDECA press Publicaciones

(...) +INDUSTRY, ADDING FAIRS TO MULTIPLY OPPORTUNITIES

BeDIGITAL will be held within the framework of +INDUSTRY, one of the largest meeting points for advanced manufacturing in the country, where the industrial supplies and hardware sector will also have its own exhibition space. These are fairs coinciding in time and space in pavilions 1 and 3 of BEC that will bring together the main players in the Smart Manufacturing value chain.
